

BODY DONATION FACT SHEET

We appreciate your attention to the following, **prior to the completion of paperwork:**

1. Unlike medical schools, we **do not** return remains to the family. The skeletal remains are a very important component to our research and teaching program. Donations made to our program will continue to be studied by researchers for many years.
2. We **do not** perform autopsies to determine cause of death on donations to our program. However, registered organ donors and those autopsied prior to donation will remain eligible for donation consideration regardless of either procedure.
3. We *reserve the right to decline donations of individuals for any reason*, but especially
