

THE UNIVERSITY OF SOUTH FLORIDA¹
Tampa, Florida

Overview

The University of South Florida (“University” or “USF”), established in 1956 and located in Tampa Bay on Florida’s west coast, is a high-impact, global research university dedicated to student success. USF is comprised of three campuses located in Tampa, St. Petersburg and Sarasota-Manatee

Budget. Each university has control over its own budget, once State funds have been received.

Appropriations. The Florida Legislature retains control of the appropriations process.

Tuition. The State universities have been granted certain powers with regard to setting tuition and the right to retain their own tuition revenues. Still, tuition-setting power for in-state undergraduate students remains largely in the hands of the Legislature, with lawmakers determining the maximum allowable rates of tuition increase and universities setting the tuition within those limits. The ability for the University to set and collect a number of student service fees provides a meaningful offset to limitations regarding tuition.

Bonding Authority. Bond-issuing authority is granted to the State of Florida and its Division of Bond Finance; the University can also borrow through its certified direct support organizations, pursuant to statutes, pledging appropriate revenues.

Strategic Plan. The University of South Florida Board of Trustees adopts a strategic plan for the University for successive five year periods. The current 2013-2018 Strategic Plan can be found here:

Budgetary Process

The University of South Florida Board of Trustees is required to prepare and submit to the Florida Board of Governors for review an annual operating budget which represents the University's plan for utilizing the resources available through direct or continuing appropriation by the Legislature, student fees, and other local sources. The operating budget is prepared and submitted in accordance with the provisions of State Law, rules of the Florida Board of Governors, and the General Appropriations Act. Any new State resources are allocated to the University according to the priorities set by the president, as are any University-wide reductions. The University's operating budget is comprised of the following budget entities:

Educational and General. The University receives an allocation of educational and general resources from the Legislature for E&G operating activities only, including general instruction, research, public service, plant operations and maintenance, student services, libraries, administrative support, and other enrollment-related and stand-alone operations of the University. The University allocates funds based on its strategic goals and initiatives according to the Strategic Plan. Allocations are distributed at the vice presidential and campus level for further distribution to the colleges, decentralized units, and departments within that vice presidential area or campus.

Student Activities and Other Student Fees. These budgets consist of planned expenditures funded from activity and

Appropriated Budget Entities. Educational & General is comprised of General Revenue, Student Fees and Other Fees (Tuition), the Educational Enhancement Trust Fund (Lottery) and the Federal Grants Trust Fund (Stimulus). General Revenue is primarily funded from sales, corporate income and beverage taxes. Lottery ticket sales provide funds for the Educational Enhancement Trust Fund. The Student Fee Trust Fund revenue is derived from student matriculation and out-of-state fees, and other miscellaneous revenues that include library fines, application fees, late registration fees and a portion of the indirect cost assessed to contract and grant activity. The following tables show the University's appropriations of Education & General by each source for the past five fiscal years.

Student Recruitment. The Office of Student Success coordinates and promotes university-wide efforts to enhance undergraduate and graduate student success. By recruiting and enrolling college-ready students, awarding financial aid and scholarships, and planning for timely degree completion for all students, the Student Success Team strives to create a positive teaching and learning environment designed to enrich all aspects of the student experience and ensure that every student who enters USF has the opportunity to succeed. The University is currently developing a comprehensive long-term enrollment plan that will allow it to coordinate academic planning, budgetary processes, capital campaigns, and facilities planning in an increasingly dynamic environment.

Student Quality Indicators. The following table shows the high school grade point averages, average Scholastic Aptitude Test (SAT) scores and average American College Test (ACT) scores for first-time-in-college students at University of South Florida for the past five fall semesters.
