USF Financing Corporation and USF Property Corporation

FY 2023 QUARTER 1 REPORT - SEPTEMBER 30, 2022

EXECUTIVE SUMMARY

State the DSO's Statutory Mission which Supports the Goals of the University

- x The Financing Corporation is the University's financing arm and is expected to provide low cost, low risk, long-term financing the University's major capital projects.

MAJOR BUSINESS INITIATIVES - FY 2023

- x \$30 million USF Housing and Student Center Project to be located on the Sarasota-Manatee Campus:
 - { The debt, along with a \$16.5 million cash contribution from the University, will finance the construction of a mixed-use facility comprising a 200-bed student housing component and a student center.
 - { On May 5, 2022, the Corporation Board approved the issuance of debt in an amount not to exceed \$30 million in the form of a 30-year, tax-exempt, fixed rate public bond. The Project was approved by the University Board of Trustees on June 15, 2022, and by the Florida Board of Governors on September 14, 2022.
 - { On October 31, 2022, the Financing Corporation issued \$30 million of debt at a tax-exempt interest rate of 4.85% on parity with the \$176 million "A1/A+" rated USF Housing System.
 - { Utilizing a competitive selection process by way of an ITN, the Financing Corporation selected the design/build team of CORE Construction and Mackey Mitchell Architects to design and deliver the project. A design/build agreement was negotiated and signed on October 31, 2022. Construction is expected to be completed in May of 2024.
- x The Corporation is closely monitoring risks to the Project described above, specifically supply chain disruptions and cost inflation. The University funded an owner's contingency of over \$4 million to mitigate some of these risks.
- x Protect USF's "AA" credit ratings. Formal presentations were made to Moody's, Standard & Poor's and Fitch in June 2022. Presentations emphasized USF's strengths in management and governance, market position and enrollment demand, operating performance, wealth and liquidity, and leverage.
 - { Moody's and S&P reported in September 2022 that all USF credit ratings were Affirmed with Stable Outlooks.
- x Direct oversight of DSOs and Auxiliaries with debt to ensure maintenance of pledged revenues, debt service coverage ratios and reserves.
 - { Management is working closely with DSOs and Auxiliaries to ensure they are managing revenues and expenses to preserve essential liquidity and maintain required debt service payments.
- x Ongoing compliance with debt covenants including IRS rules on tax-exempt bonds and required reporting on EMMA.
 - { Management is currently working closely with the University to ensure that the proposed Housing and Student Center project described above will be in compliance with private use guidelines.
- x On April 21, 2022, the University of South Florida terminated its University Services Agreement (Services Agreement), its Marketing and Recruitment Services Agreement (Marketing Agreement), and subsequently the Stockholders Agreement with INTO USF, Inc. This resulted in a change in equity investment balance in INTO USF for the current period, net of its 50% share of INTO USF's cumulative net profits losses and dividend distributions, with losses not exceeding the initial investment. On July 15th, 2022, the Financing Corporation filed a lawsuit against INTO South Florida and INTO USF, Inc. to compel the wind-up and dissolution of INTO USF Inc.

EXPLANATION OF MAJOR VARIANCES FROM PRIOR YEAR - YTD

x

x

x Income Statement: Revenue Total Operating Revenues are down slightly (\$147,000), primarily due to timing of events at the Arena; however, Revenues are on track to meet or exceed the FY 2023 Financial Plan revenue target.

x Income Statement: Expense Total Operating Expenses increased slightly (\$53,000) primarily due to inflationary CPI adjustments in expenses from the prior year.

x Income Statement: Nonoperating Revenues (Expense) Interest income contributed to the increase in Nonoperating Revenues of \$247,000 due to increased interest rates. FY 2023 interest expense is expected to increase from FY 2022 interest expense with the issuance of the Housing Series 2022 debt on October 31, 2022.

- CAMLS is expanding research focused on simulation-based training and virtual/augmented reality to utilize CAMLS's unique expertise, assets and USF Health faculty to obtain external grants in partnership with small businesses and USF Health affiliates.
 - HPCC continues to provide the financial management support for 16 healthcare accreditations held by USF Health (part of the Office of Continuing Professional Development (CPD)), as well as two institutional accreditations (Society for Simulation in Healthcare and the American College of Surgeons Accredited Education Institute). Although live events are postponed indefinitely, CPD has expanded its portfolio of online programming in partnership with medical education companies (MEC) and transitioned its business model to accreditation only services and away from management of live events.
-
- 'Due from USF/DSO' increased from 6/30/2022 as new contracts work through the approval process. 'Lease receivable' and 'Lease receivable, non-current', which are a result of GASB 87 implementation, also increased from 6/30/2022 with a new CAMLS tenant.
 - 'Accounts payable' decreased \$905K and 'Deferred inflows related to grants' increased \$910K from 6/30/2022. The change in both line items is from the payment of grants to MECs and receipt of new grants for future programs with MECs, which the Office of Continuing Professional Development will accredit.
 - Contracts & grants - non USF', which includes MEC related grants, is down \$942K. MEC related grants are down \$996K year over year and similarly, 'Programming Services' are down \$978K year over year with payments to MECs decreasing \$1,001K year over year. 'Program registrations & exhibits' increased year over year as CAMLS increased its live event training and new tenants at CAMLS increase 'Rental revenue' year over year. The Contribution Margin Ratio increases since a larger portion of revenue is kept for HPCC operating expenses.
 - Operating Loss improved 66% or a reduction of \$173K year over year due to increasing live event business at CAMLS, increasing rents and management of operating expenses.
 - The 3 months ended September 30, 2022 'Decrease in Net Position' was (\$155K) compared to the Approved Plan of (\$89K) before 'Transfers from UMSA'. Hurricane Ian resulted in a few clients needing to postpone their event. The first two quarters of the fiscal year are budgeted weaker than the second two quarters due to holidays and summer weather.
 - Although 'Days cash on hand' is 56, most of the cash on hand is grants received for MECs. Unrestricted operating cash will improve with payment of ongoing USF Health Undergraduate Medical Education services, other USF service contracts and stronger revenues in the second half of the fiscal year.
