

Property (IP). Camouflaged states are typically employed in order to guard against

adversaries who are able to observe the system's state. The idea is to ensure that the system's state is not revealed to the adversary, even if the adversary is able to observe the system's state.

The following table shows the results of the experiment. The table is divided into two main sections: 'State' and 'Transition'. Each section contains a list of states or transitions and their corresponding values.

State	Value
State 1	0.000000
State 2	0.000000
State 3	0.000000
State 4	0.000000
State 5	0.000000
State 6	0.000000
State 7	0.000000
State 8	0.000000
State 9	0.000000
State 10	0.000000
State 11	0.000000
State 12	0.000000
State 13	0.000000
