Students keep a copy of the checklist and this page for your records.

Check before Graduation

Grades: All incomplete "I" grades must be cleared. Note: All "I", "IF", and "M" grades turn to a permanent "F" at

graduation. Inform your professors that this is your graduating semester so all of your grades are

submitted on time. Check your GPA and grades in OASIS.

Transferring Courses:

Appropriate transfer courses must be approved and posted to your record well in advance of your graduation. Taking courses at another institution during your graduating term is discouraged. If you must take degree required courses at another institution during your graduating term, immediately after you receive your grades, electronically submit a transcript or pick up and hand-deliver a sealed transcript to Pat Homer in Engineering Student Services, ENC 1302. Failure to post your transfer credit in a timely

manner will result in denial of graduation.

Accelerated

Students in the Accelerated Graduate (5 year) Program must complete the Accelerated Program

Grad. Prog.: Progression Application with this graduation checklist form for the Bachelor's degree. The form is

available online at http://www.grad.usf.edu/accelerated.php.

Graduation Ceremonies:

University: Students must register to participate in the University Commencement Ceremony. Visit

http://www.usf.edu/commencement/ for all official USF commencement information and instructions.

College: Students will receive an invite to attend the College of Engineering Induction to the Profession. You must respond to the invite and register for the ceremony to attend. Please contact Catherine Burton at (813)

974-3782 for more information. Note: The Induction to the Profession ceremony is held in the fall and

spring only. Students graduating in summer may attend the ceremony in May or December.

Cancelling Graduation:

We encourage students to cancel their graduation application with Engineering Student Services ASAP if - for any reason - you will not complete your degree requirements. Remember to reapply as there is no automatic rollover for graduation applications! Note: International students cannot cancel their graduation if all requirements for the degree have been met the semester they have applied for without express approval of an International Services advisor.

Certification of Graduation:

Students participating in graduation ceremonies are doing so before graduation certification is finalized. All potential graduates are subject to final approval or denial by the College of Engineering. This final certification is completed after semester grades are posted. Grades are posted one week after the graduation ceremony. Certification Letters are mailed approximately four to six weeks after
