Undergraduate instructional activity data in Part B may be reported in units of clock hours or credit hours.

Which instructional activity units will you use to report undergraduate instructional activity?

Please note that any graduate level instructional activity must be reported in credit hours.

The image shows a large table with multiple rows and columns. The top portion of the table is obscured by a large blue rectangular block. Below this, the table structure is partially visible, showing several rows with varying background colors (light blue, orange, and grey). The right side of the table is also partially obscured by a grey vertical bar. The table appears to be a complex data structure, possibly a spreadsheet or a database table, but the specific content is illegible due to the redactions.
