Undergraduate Council
Minutes for September 24, 2012

Present: Jennifer Bosson (CAS), Dell deChant (CAS), Kim McCormick (COTA), Hana Osman (HSC), Tom Pluckh(2)y21(rDT (2))TJETB

This is the formalization of the course offered for several years. The course was first under CMMB and now given to IB. Course covers healthcare and healthcare systems. Course objectives and learning outcomes need to be reversed; course justification also needs to be clarified; CIP needs to be checked.

8. [HSC 4697](#) – Environmental and Occupational Risk Analysis
Items listed under course objectives should be moved to learning outcomes; items under learning outcomes should be moved to course objectives. The accreditation part (3A) was not answered under justification. "This course provides a scientific basis..." should be included in the course objectives.
9. [NSP 4869](#) – Fundamentals of Healthcare Finance for RNs
Items currently under learning outcomes should be placed under course objectives, and items currently under course objectives should be moved to learning outcomes.
10. [SCE 4945](#) – Practicum in Science Education
This course is in line with the requirements of SACS. The purpose is to have the students go out to the schools and work with the teachers and students in the field. Changes were made to the syllabus in reference to the course objectives and learning outcomes of the proposal.
11. [SYP 4675](#) – Animals and Society
Course objectives and learning outcomes were clearly defined; it is an excellent course that will add to the overall mission of the university.
