Our Newsletter

Performance Objectives

Public Relations and Marketing—To visit the local, state, and national community (military, civic, social, etc.) to reach out, tell them about the JMSLC, network, and develop partnerships. To identify potential human resources to serve as coaches, teachers, and mentors for the cadets and midshipmen.

Program Development & Curriculum Design—To fully implement the various program requirements in order to establish relevance with the academic and military community. To communicate with the 3 ROTC Cadet Commands, in order to determine the feasibility of modifying the current pre-commissioning curriculum requirements. To encourage the development of “an international/global leadership studies” degree program.

Construction Oversight—To provide oversight with the University’s Facilities Planning and Construction Department during the various phases of construction/remodeling.

Organizational Development and Oversight—To assess and develop the organizational structures that would best serve our constituents: the cadets, officer candidates, and midshipmen.

Resource Acquisitions and Management – To seek and secure the resources (fiscal, human, facilities, tools, information/knowledge, and environmental) required to set-up, operate, manage, sustain, and grow the Center and program.
